

Broan-NuTone® Presented with a 2023 Kitchen & Bath Business' Readers' Choice Award

Award marks the 11th consecutive win for the global leader in residential indoor air quality, energy efficiency and innovation

HARTFORD, Wis. (August 3, 2023) – [Broan-NuTone®](#) has been named a recipient of the 2023 *Kitchen & Bath Business* (KBB) magazine's Readers' Choice Awards in two categories. This is the 11th year the company has received this honor, highlighting its efforts to continue developing an expansive residential ventilation product offering geared toward improving indoor air quality and creating a cleaner, healthier environment.

Through this program, more than 20,000 of the magazine's readers voted for their favorite brands and manufacturers as a whole across 25 categories covering all aspects of kitchen and bath design.

"Broan-NuTone is proud to be recognized for our leadership in the kitchen and bath industry for the 2023 program," said Dave Jones, Go-To-Market Assistant Director of Broan-NuTone. "This award proves that we are dedicated to helping homeowners, designers and builders alike to achieve better indoor air quality and a better quality of life."

Broan earned top honors in the Bath Ventilation and Kitchen Ventilation categories, which focus on ventilation effectiveness and noise level, while NuTone won in the Kitchen Ventilation category. Readers chose their favorites based on three criteria: local availability, support from supplier/manufacturer and price point for their typical client budget, as well as category-specific criteria.

The complete list of winners is featured in the 2023 July/August issue of KBB magazine and posted at <https://www.kbbonline.com/awards-events/readers-choice>.
