

**Broan-NuTone® Receives 2022 Kitchen & Bath Business' Readers' Choice Award**

*Award marks the 10th consecutive win for the global leader in residential indoor air quality, energy efficiency and innovation*

**HARTFORD, Wis.** (August 15, 2022) – [Broan-NuTone®](#) has been named a recipient of the 2022 *Kitchen & Bath Business* (KBB) magazine's Readers' Choice Awards in two categories. This is the 10th year the company has received this honor, emphasizing its continued efforts to develop a wide variety of high-quality, energy-efficient consumer products geared toward improving indoor air quality.

Through this program, the magazine's readers are granted the opportunity to vote on their favorite brands as a whole across 25 kitchen and bath categories; this year, there were more than 40,000 votes received.

"Broan-NuTone is honored to be among the winners for this year's program," said Dave Jones, senior marketing communications and brand manager of Broan-NuTone. "Broan-NuTone has led the industry with forward-thinking residential ventilation products, customized climate and indoor air quality solutions that are all backed by award-winning customer service and this award continues to signify how we've lead the industry for over 90 years."

Broan-NuTone earned top honors in the Bath Ventilation and Kitchen ventilation categories, which both focus on effectiveness and noise level. Broan-NuTone's sister brand, BEST Range Hoods, also won in the Kitchen Ventilation category.

"In this year's survey, we used support received from supplier/manufacturer, price point for a typical client budget and – perhaps most importantly right now – local availability as the criteria for choosing this year's winning brands," said Chelsie Butler, executive editor of *Kitchen & Bath Business*. "All three considerations are high on a design professional's list when choosing brands for their kitchen and bath projects."

The complete list of winners is featured in the July/August issue of KBB magazine and posted at <https://www.kbbonline.com/awards-events/readers-choice>.

###
