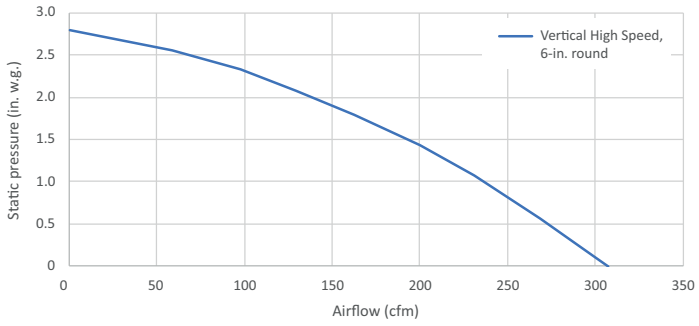
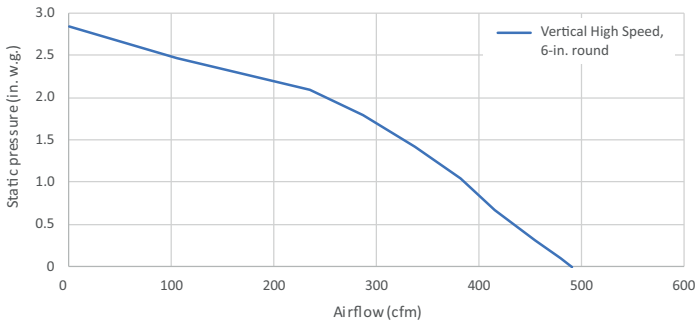
AIR FLOW PERFORMANCE

E1224SSLS & E1230SSLS



E1230SS



HVI-2100 CERTIFIED RATINGS comply with new testing technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at 0.1 in. static pressure, based on tests conducted in AMCA's state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements.

* Max. blower CFM indicates the performance of the hood blower in open air.
